

Medical Diagnosis Center

Customer Journey Map (ServiceNow Service Portal)

Scenario

A patient wants to book a diagnostic test, provide sample, get the results and make payment using the ServiceNow portal.

	1. Awareness	2. Register / Login	3. Book Test	4. Confirmation	5. Sample Collection	6. Test Processing	7. View & Download Report	8. Payment	9. Feedback & Next Visit
	Know about the diagnostic center	Create account and login	Select test, date and time	Receive booking confirmation	Visit lab and provide sample	Lab processes the sample	Access test results	Make payment (if applicable)	Give feedback and book again
Customer Actions	Search online / Hear from family, friends or doctor	Create account, provide basic details and login	Choose diagnostic test and preferred date & time	Receive booking confirmation	Visit center, show booking details and provide sample	Lab processes the sample	Check status and download report from portal	Make payment online or at center	Provide feedback and book again if needed
Touchpoints & Interactions	Website, hospital recommendations, social media	Service Portal registration form, email verification	Test catalog, date & time slots, test details	Confirmation page, email/SMS notification	Lab staff, appointment slip, sample collection desk	Lab technician, status updates in ServiceNow	My Appointments page, report section, notifications	Payment gateway, invoice generation	Feedback form, re-booking option, personalized suggestions
Goals & Motivations	Find a reliable diagnostic center	Create account easily and securely	Book the right test at a convenient time	Get instant confirmation	Complete sample collection quickly and smoothly	Know the status of my test	Get my report on time	Make payment securely	Share feedback and book again in future
Positive Moments	Easy to find information about services	Simple and quick registration process	User-friendly booking experience	Instant confirmation with details	Friendte and supportive staff	Real-time status updates	Easy access to digital report	Multiple secure payment options	Option to provide feedback and quick re-booking
Pain Points	Not sure which test to choose	Forgot password or email not received	Limited slots available	Delay in receiving confirmation	Waiting time at the center	Uncertainty about test status	Report not available on expected time	Payment failure or transaction errors	No reminders for next tests
Opportunities for improvement	Provide clear test details, pricing and FAQs	Enable OTP login and easy account recovery	Show real-time slot availability	Send instant email/SMS with all details	Provide digital queue management and directions	Send status notifications to patients	Notify when report is ready with download link	Integrate reliable payment gateway with multiple options	Send reminders for follow-up tests and personalized offers
